

CPCCCM3001 Operate elevated work platforms up to 11 metres

ICG Training and Consultancy Services Pty Ltd's Elevating Work Platforms Course is designed to equip students with the essential knowledge and practical skills required to safely and effectively operate a range of elevated work platforms up to 11 metres.

The **EWP Course** covers the skills and knowledge necessary to operate EWPs across various settings, ensuring compliance with all relevant legislative requirements and safety standards. The training covers critical aspects such as risk assessment, safe operation techniques, emergency procedures, and routine maintenance.

From the guidance of our highly skilled and experienced trainers, you will learn how to:

- Safely operate boom-type elevated work platforms (EWPs).
- Correctly position and stabilise EWPs on various terrains.
- Conduct pre-operational checks and routine maintenance for both types of equipment.
- Understand and comply with relevant legislation, standards, and safety procedures.
- Identify hazards, implement risk controls, and respond to emergencies effectively.

Delivery Mode

This course is delivered face-to-face in a classroom setting with theoretical knowledge and practical training and assessment activities in a simulated work environment.

Target Cohort

This course targets individuals who may be required to operate an elevating work platform with a boom over 11 metres as part of their work.
